

ELMARCO
GOOD FORM FOR LIGHTING

ABOUT US

33 years of experience

Years of hard work, experience and taking up challenges have resulted in a wide range of high-quality lanterns and universal indoor and outdoor lighting fixtures.

Find out the key points from our decades-long history and you will find out what shaped our position on the domestic market.

Light is to the eye what music is to the ear.

Bjarne Schlager

We do not inherit the Earth from our fathers, we borrow it from our children.

Antoine de Saint-Exupéry

Mission

Create lighting with a sense of shared responsibility for the aesthetics of public and private space.

Diversify, color and improve the surroundings with the help of light.

Friendly Manufacturing Environment

FRIENDLY MANUFACTURING ENVIRONMENT

Our products are manufactured in the new 12000 m³ volume factory building, in environment and staff friendly conditions and in accordance with the Factory Production Book.

ENERGY EFFICIENCY

Eco friendly production and energy efficiency as priorities. Energy obtained from the SUN (PV installation) and from the depths of the EARTH by using geothermal heat pumps (GHPs) optimise our costs of production and running the factory.

Elmarco luminaires equipped with LED light sources provide class A energy efficiency integrated lighting solutions.

SAFETY FIRST

Having security and health of our customers in mind, we produce our lighting fixtures with thoroughness and get them inspected in accredited laboratories. All of our products carry the CE mark issued by respectful certification authorities.

DESIGNING — CONSULTING — CUSTOMIZATION

We use specialized design software to design lighting and luminaires. We work with designers and investors.

We produce prototypes using digital technologies. We consider all aspects and customer expectations, and in our decisions we follow the key rule of value analysis.

„ZERO WASTE“ POLICY

We use the highest quality fully recyclable materials for production. Our company subscribes to the idea of UN SDGs.

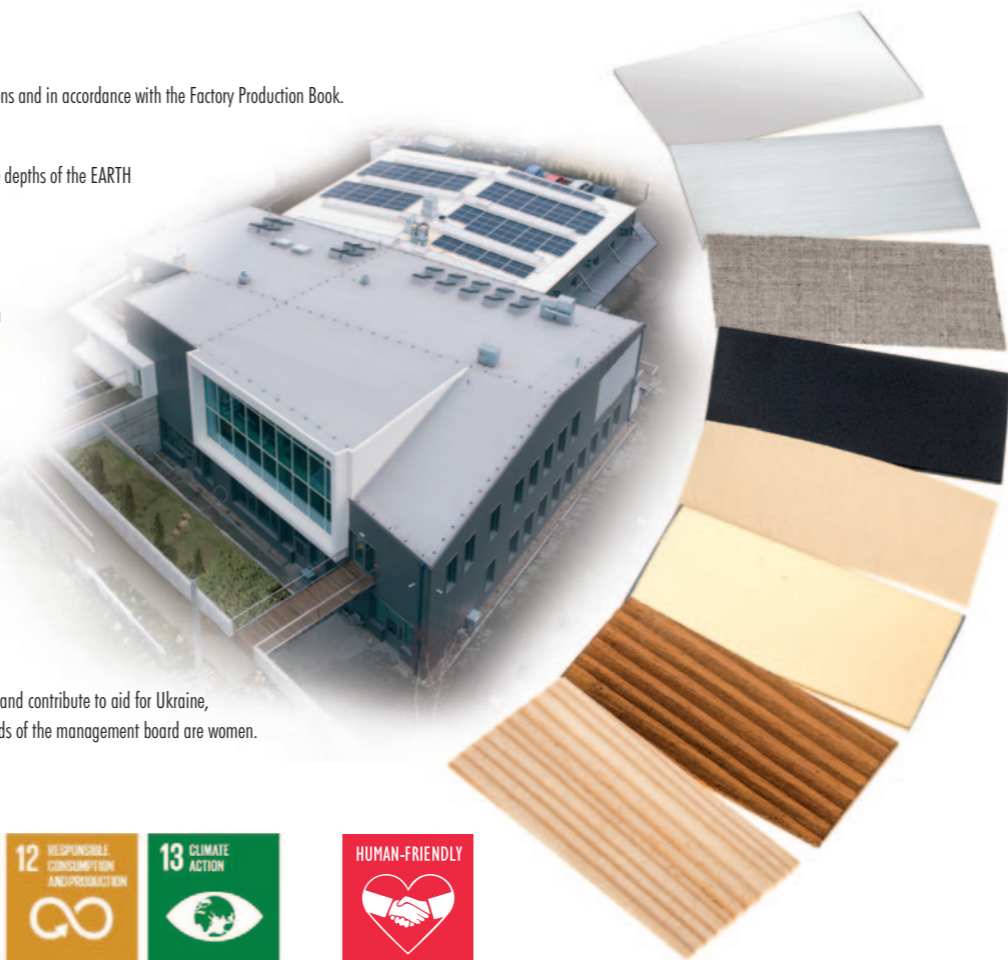

ASSESSMENT - ESG

We make sure that regarding:

E - environmental - we maintain SDGs targets and keep environmentally friendly production,

S - social responsibility - we have a whole package of facilities at the factory for people with disabilities, support NGOs and contribute to aid for Ukraine,

G - company governance - we are committed to women making up almost one third of the factory's workforce. Two thirds of the management board are women.

Over 30 years of experience

In our work we combine industry experience with scientific achievements. We know this market inside out and we are ready for its further development.

Comprehensive solutions

We provide a comprehensive project management capability for interior and exterior lighting projects. This is when working on large-scale projects reveals our full potential.

Diverse range

We continually develop both classic and modern designs to ensure that our range is as flexible as possible. Elmarco's products are used in a wide range of spaces of diverse character.

Own factory

We have extensive technological facilities in Gdynia. Thanks to the ongoing control over the course of production processes, we are able to ensure high and repeatable quality of products.

Professional advice

Our clients can count on specialist care in the selection and lighting design. We remain at their disposal at every stage of realization.

Individual approach

We are always opened to the vision of architects and designers we work with. Each project is a separate story for us.

Original design

Elmarco's unique luminaire designs are created in our design studio in Gdynia. Among them you will find designs that are more modest and those that are slightly extravagant.

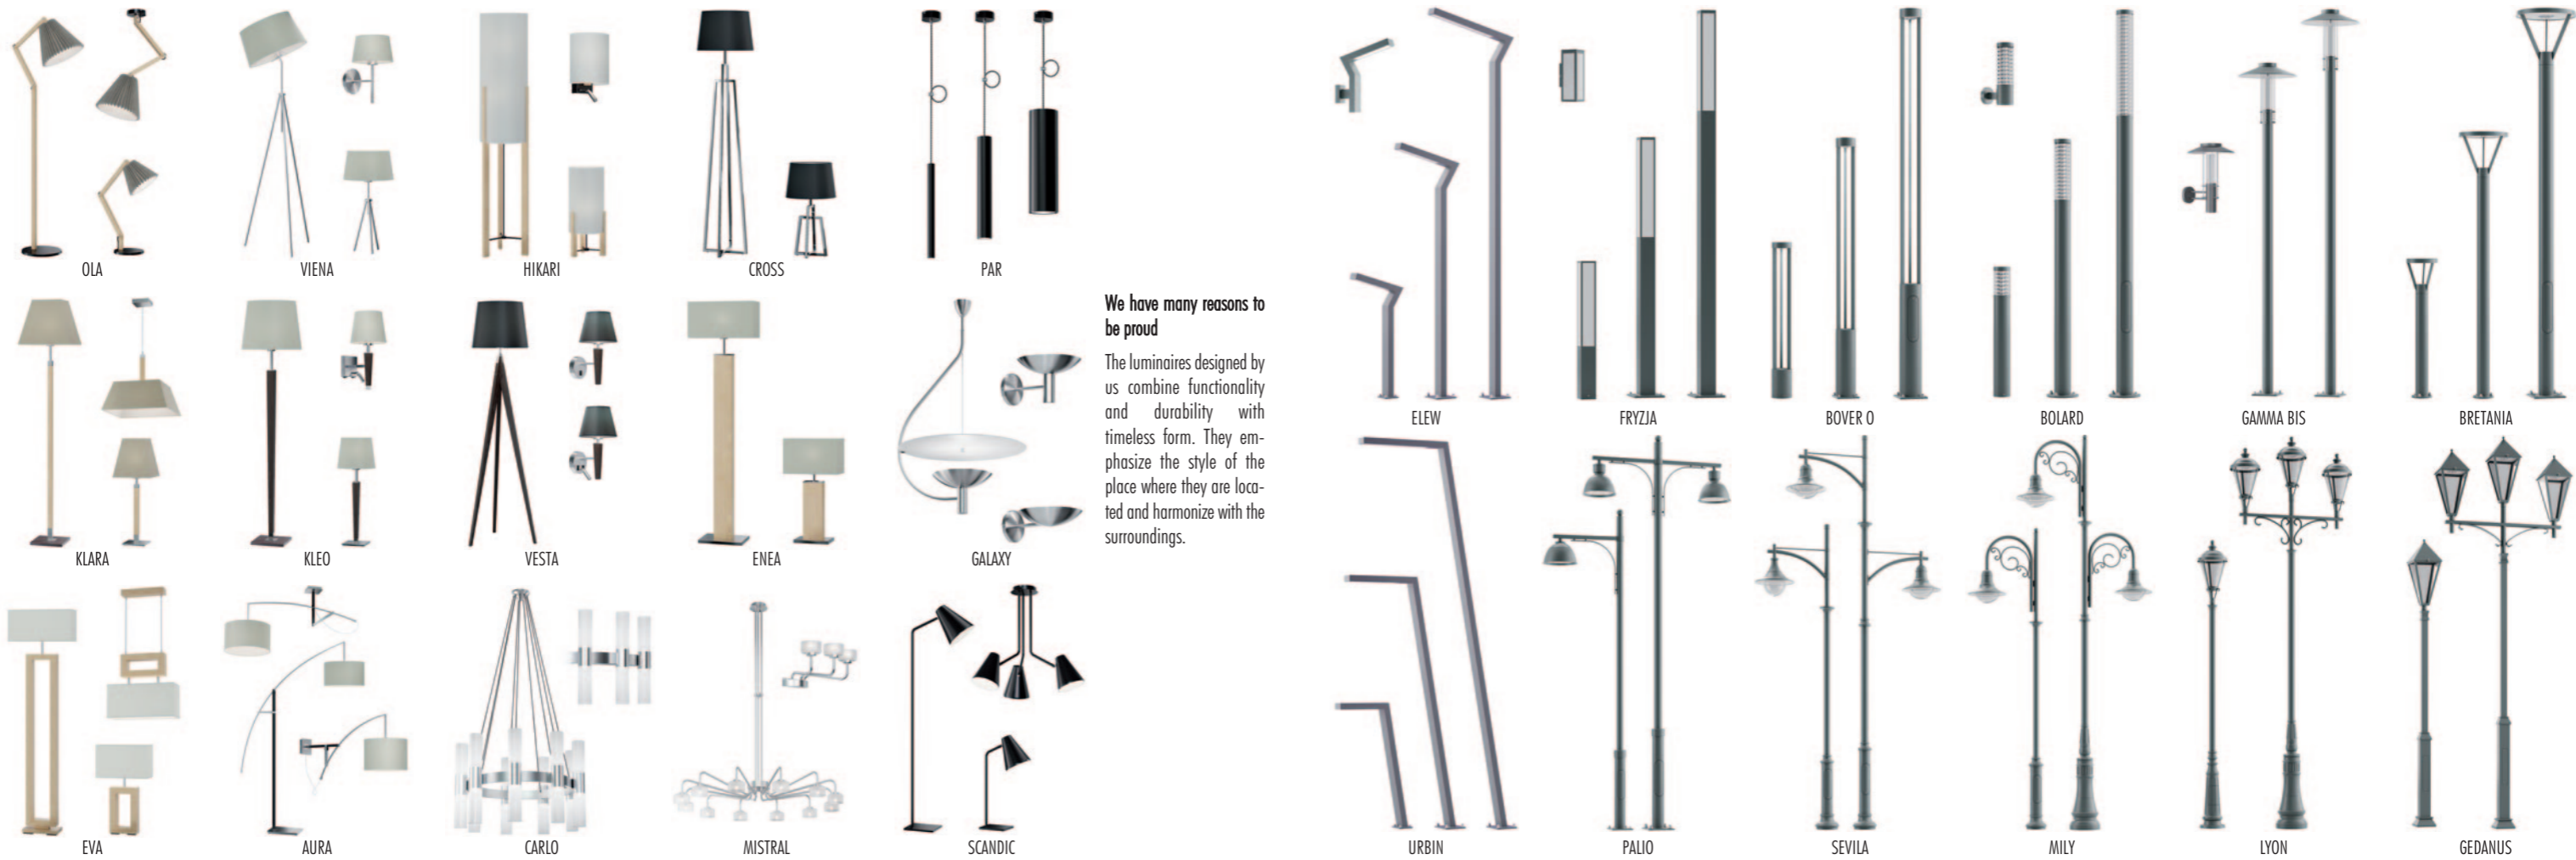

Environmentally friendly production

We assign great importance to the materials from which our luminaires are made. We take care to ensure that the production, operation and subsequent replacement of the lighting leaves the smallest possible footprint on the environment.

Fair Play

Our priority is to add value for our business partners.
