NATALIA SOKÓŁ dr, MSc Light & Lighting, adiunkt na Wydziale Architektury Politechniki Gdańskiej, projektant opraw oświetleniowych. Natalia zaprojektowała serię opraw Scandic.

## Radosław Czerniejewski

*“Projektowanie wnętrz jest dla mnie poszukiwaniem harmonijnych rozwiązań przestrzennych w oparciu o zasady kompozycji, proporcji a także wymagania użytkowe. Priorytetem jest tworzenie przestrzeni spójnej stylistycznie, jasno zdefiniowanej i funkcjonalnej. Jej zmienność wynikająca z upływającego czasu i modelowania przestrzeni światłem naturalnym oraz sztucznym jest kluczowa w projektowaniu wnętrz.”*

RADOSŁAW CZERNIEJEWSKI dr, arch. wnętrz, adiunkt na Wydziale Architektury Sopotkiej Szkoły Wyższej, właściciel pracowni CGL, projektant opraw oświetleniowych. Radek zaprojektował serię opraw Kreska D.

*“For me, interior design is a search for harmonious spatial solutions based on the principles of composition, proportion and functional requirements. The priority is to create a stylistically coherent, clearly defined and functional space. Its variability resulting from the passage of time and the creation of space with natural and artificial light is a key factor in interior design.”*

RADOSŁAW CZERNIEJEWSKI, PhD, interior architect, assistant professor at the Faculty of Architecture of the University of Sopot, owner of the CGL studio, designer of lighting fixtures. Radek designed the Kreska D series of luminaires.

## Adam Milewczyk

*“Zmysły pobudzone przez bodźce takie jak światło, modelują naszą percepcję otoczenia. Niczym pędzle w rękach malarza, oprawy to narzędzia wizualnego odzwierciedlenia emocji w przestrzeni.”*

ADAM MILEWCZYK, mgr inż. arch., ukończył też studia z zakresu projektowania wzornictwa w WSSiP w Łodzi, projektant, właściciel pracowni projektowej AM. Adam zaprojektował serię opraw Kandel S.
