

ELMARCO
ŚWIATŁO W DOBREJ FORMIE

Szanowni Państwo,

Nasza systematycznie rozwijana oferta nadąża za światowymi trendami i jest mocną stroną naszej firmy.

Dzięki unikalnym technologiom i zapleczu technicznemu nie tylko produkujemy wyroby katalogowe, ale również realizujemy indywidualne projekty.

Dbając o środowisko naturalne, działamy w ramach idei zrównoważonego rozwoju.

Aluminium i drewno, jako podstawowe materiały dla produktów Elmarco, spełniają wszelkie oczekiwania użytkowe i proekologiczne.

Produkty wytwarzane są w naszym zakładzie o kubaturze 12.000 m³ w warunkach przyjaznych dla środowiska i pracowników, zgodnie z wdrożonym systemem Zakładowej Kontroli Produkcji (ZKP) opartym na polskich i europejskich normach i dyrektywach.

Procesy produkcyjne realizujemy we własnych oddziałach. Dzięki temu mamy pełną kontrolę nad procesem produkcji i jakością oraz terminowością dostaw.

Wysoką jakość naszych produktów oraz ich bezpieczeństwo potwierdzają zewnętrzne akredytowane laboratoria (m.in. Zetom, ViTom) w zakresie fotobiologii, efektywności energetycznej, fotometrii oraz zgodności z wymaganiami Elmarco PBS.

Dear Customers,

Our regularly developing offer keeps up with global trends and is a strength of our company.

Due to unique technologies and technical background, we not only produce catalog products, but also carry out individual projects.

Taking care of the natural environment, we work within the idea of sustainable development.

Aluminum and wood, as the basic materials for Elmarco products, meets all utility and pro-ecological expectations.

The products are manufactured in our plant with a cubic capacity of 12,000 m³ in the environment and employees friendly conditions, in accordance with implemented system of Factory Production Control (FPC) based on Polish and European standards and directives.

We carry out production processes in our own departments. Consequently, we have a full control over the production process and quality as well deliveries on time.

The high quality of our products and their safety is confirmed by the external accredited laboratories (including Zetom, ViTom) in photobiology, energy efficiency, photometry and compliance with the Elmarco PBS requirements.
